PROFESSIONAL SUMMARY

Full Stack Developer with over 4 years of experience building and shipping web and mobile applications across fintech, healthcare, SaaS, e-commerce, and influencer marketing domains, including work with NGOs and non-profit healthcare organizations. Proficient in React, React Native, Node.js, Next.js, AWS, PostgreSQL, MongoDB, and .NET Core. Proven ability to lead small teams, integrate AI services, and deliver production-ready products under tight deadlines.

KEY HIGHLIGHTS

- Led the first AI-integrated project at Myanmar's largest private bank using AWS Bedrock.
- Worked with NGOs and non-profits in healthcare, such as Sun Community Health Myanmar.
- Shipped 4+ freelance products (web and mobile) across fintech, healthcare, and real estate.
- Delivered a digital banking MVP in 2 weeks and its admin panel in under 2 days.
- Supervised front-end teams and mentored junior developers across multiple projects.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, React, React Native, Next.js, Angular 8+, Node.js, Nest.js, FastAPI, Hono, Bun, .NET Core, HTML, CSS

AI & LLM: LangChain, LangGraph, AWS Bedrock, S3 Vector Store

Databases: PostgreSQL, MySQL, MSSQL, MongoDB, DynamoDB, Firebase Firestore

Cloud & DevOps: AWS (Bedrock, Lambda, S3, EC2, ECR, ECS & Fargate, ALB, EventBridge), Google Cloud Platform, Firebase, Heroku, Active Directory

Tools & Practices: Git, tRPC, REST APIs, Code Review, Agile, SEO Optimization

WORK EXPERIENCE

Web Development Consultant — Voix Advisory

Jun 2026 – Present | Remote

- Provide web development consulting to businesses, NGOs, and non-profit healthcare organizations — scoping requirements and translating business goals into technical roadmaps.
- Design, build, and ship client web projects end-to-end, from landing pages and customer registration workflows to AI-powered automations.
- Advise clients on technology selection, performance, SEO, and deployment strategy, and provide ongoing maintenance and support.

Product Engineer — Partipost

Mar 2026 – Present | Singapore (Remote)

- Develop and maintain the Partipost mobile application, delivering new features and improving user experience.
- Maintain and enhance the Partipost Campaign Manager (CM) web portal used by brands and agencies to create and manage campaigns.
- Collaborate with cross-functional teams including product, design, and backend engineers to ship features on schedule.
- Implement responsive UI components and ensure consistent behavior across web and mobile platforms.

Supervising Full Stack Developer — KBZ Bank

Oct 2024 – Mar 2026 | Myanmar

- Led development of KBZ Wiki, the bank's first AI-integrated product — an AI-powered bank agent answering questions about policies, announcements, and loan products — using AWS Bedrock and

related AWS services.

- Upgraded Firebase Cloud Messaging infrastructure from legacy FCM APIs to HTTP v1, improving push notification reliability.
- Supervised the React front-end development of the Employee Loan Project, ensuring code quality and timely delivery.
- Managed end-to-end development, deployment, and integration of the Earthquake Home Loan Project for bank employees.

Cloud & DevOps Consultant / Full Stack Developer (Contract) — TwoSteps.ai

Apr 2024 – Oct 2024 | Remote

- Served as the most experienced cloud engineer on a team of four, providing architecture guidance across AWS, Azure, GCP, Cloudflare, and Hostinger VPS.
- Co-developed and maintained Benchmark, a clinical performance platform that lets physiotherapists objectively measure patient progress, benchmark results, and generate data-driven rehabilitation plans — contributing to both back-end services (Node.js, Nest.js) and front-end dashboards.
- Designed and implemented the observability stack using Elasticsearch and Kibana (ELK), enabling real-time log aggregation, alerting, and dashboards.
- Provisioned and managed cloud infrastructure on AWS (EC2, ECS, ALB, RDS) and Azure, automating deployments with Docker-based CI/CD pipelines.
- Integrated Cloudflare WAF and DNS management to secure public-facing endpoints and improve platform availability.

Full Stack Developer — MyanCare Telemedicine Co., Ltd.

Feb 2022 – Oct 2024 | Myanmar

- Collaborated with product and marketing teams to prioritize features and translate requirements into technical deliverables.
- Developed and maintained front-end and back-end codebases for the MyanCare TeleHealth App using React, Node.js, and PostgreSQL.
- Implemented business logic, conducted code reviews, and mentored peers on the YinThway Call Center Project.
- Led bug resolution, feature development, and full-stack maintenance for the YCare POS System.
- Built a cross-platform React Native app with tRPC for a Japanese client under a contractual engagement.

PROJECTS

Sun Community Health (NGO) (schmyanmar.org)

Tech: Web Development, Consulting

National non-governmental healthcare organization operating in Myanmar since 2022.

Web development consultant across multiple projects — advising on and delivering websites and web tooling for the organization.

OYA Health (oya.health)

Tech: Web Development, UX

Longevity and preventive-wellness platform blending evidence-based primary care with lifestyle medicine and health-optimization technology.

Revamped the landing page website and rebuilt the customer registration workflow.

Social Lady (social-lady.com)

Tech: AI, Automation

Digital and technology company helping businesses grow, scale, and reach their full potential.

Built an AI-powered daily email digest workflow that summarizes incoming mail, so potential high-value inquiries never get lost in a crowded inbox.

Myanmar Ahla Gallery (www.myanmarahla.com)

Tech: Next.js, React, Vercel

Art gallery in the heart of Yangon showcasing emerging and established Myanmar artists — a celebration of creativity and tradition.

Built a dynamic landing page and admin dashboard under contract.

Meral Myanmar (Digital Banking) (www.meralmyanmar.com)

Tech: React Native, Next.js, Clerk, Node.js

Digital banking startup building the future of finance in Myanmar.

Led a junior developer to ship the React Native MVP in 2 weeks. Built the admin panel with Next.js and Clerk in under 2 days.

Magical Face Luxury Aesthetic Complex (proxclinic.com/clinic/magical-face-luxury-aesthetic)

Tech: React Native, Node.js

Myanmar's biggest luxury aesthetic complex, providing facial and body aesthetic health services.

Sole developer. Consulted directly with the client and delivered on schedule.

Z8 Real Estate (z8-re.com)

Tech: React Native, Next.js, TypeScript

Myanmar's smartest real-estate technology platform for agents, companies, and individuals.

Shipped an MVP for Android and iOS and built the platform website, through close collaboration with a teammate and UI/UX designer.

EDUCATION

BE in Information and Communication Technology

University of Technology (Yadanapon Cyber City) | Jul 2018 – Jul 2021

- Studied computer science fundamentals and software engineering.
- Won second prize in a university Arduino Prototype contest.
- Participated in hackathons and programming competitions.
- Left during the coup in 2021 to pursue a full-time software development career.

LANGUAGES

English, Burmese
